PERSONAL PROJECTS :

Covid -19 App (Flutter)

- In this project I have integrated different api's which fetch the covid cases of India as well as all over the world. You can get the covid cases

Voice Assistant with Computer Vision (Python)

- In this project the voice assistance does more than replying to our queries, with the help of computer vision it can detect different colors which are programmed to perform different tasks like scrolling your screen without touching it. And currently I am trying to make it more advance.

Portfolio (HTML, CSS)

- I have developed my own portfolio using HTML, CSS.
